WORK EXPERIENCE

WEBSE SDN BHD

October 2024 - Present

Junior Web Designer

- Develop, enhance, and maintain client and internal websites, ensuring high performance, accessibility, and responsive design.
- Collaborate with designers, project managers, and other developers to translate requirements into functional interfaces.
- Troubleshoot and resolve UI/UX issues, CMS errors, and deployment problems across multiple environments.
- Perform code reviews, version control management, and documentation to ensure code quality and maintainability.
- Analyze website issues reported by clients and provide timely patches or structured improvements.
- Participate in planning meetings, contributing technical insights for project architecture and feature planning.

WEBSE SDN BHD

April - September 2024

Web Trainee Developer (Front-end-intern)

- Maintained and updated client websites, ensuring accuracy, stable functionality, and timely content updates.
- Learned and applied CMS tools for content creation, layout updates, and metadata optimization.
- Designed and developed mockup pages using Liferay, supporting early-stage UI/UX prototypes.
- Built a backend-side tool in Golang that interacted with RESTful APIs, improving understanding of API structures and request workflows.
- Gained hands-on exposure to Flutter and Android Studio, experimenting with mobile UI components and basic app functionality.
- Developed interactive forms using Laravel + Livewire, improving validation, data handling, and component reusability.
- Assisted senior developers in debugging front-end issues and testing new features before deployment.
- Documented internal workflows, learned Git versioning, and participated in small-scale team development cycles.

PROJECTS

IoT- based Smart Agriculture Monitoring System (Final Year Project-2023)

- Implemented an IoT-based system for a Baling farmer
- Real-time data
- User-friendly web and mobile application accessible for control through smartphones, computers, or laptops.

Maintenance Updates

- Maybank Asset Management - Liferay
- Bank Pembangunan Malaysia Berhad (BPMB) - Liferay
- Sun Life - Kentico 13
- Alliance Bank- Kentico 13
- Prestar - Liferay
- Tokio Marine Intranet - Xperience by Kentico
- Pr1ma - Flutter
- Single Buyer - Xperience by Kentico
- SME Bank - Liferay

PAPERS

- An Implementation of RFID-Enabled ID Cards in the Education Sector to Optimize and Facilitate the Use of Student Cards.
- A Systematic Literature Review of Network Analysis Tools & Techniques in Digital Forensic Investigations
- Securing the IoT: Understanding and Mitigating DDoS Attacks on IoT Layers.
